To the PhD Admissions Committee at Delft University of Technology,

Dear Admissions Committee,

I am excited to apply for the fully funded PhD position on "The Impact of AI on Business Operations in Knowledge-Intensive Technology Firms" at the Delft University of Technology. As a passionate AI and Data Science Engineer, I am drawn to this opportunity to investigate how AI transforms core business functions within knowledge-intensive firms.

With my background in relevant fields and strong quantitative research skills, I believe I can make a meaningful contribution to this project. Specifically, my achievements in the "Cardiovascular Medical Digital Twin" project have prepared me well for this PhD offer. For instance, my work on $PI_{DeepONet}$, a *Physics-Informed Operator Network using PyTorch Autograd*, demonstrates my ability to integrate AI into complex

Moreover, my experience with $SST_{KODA_MultiScale}$, a robust cloud forecasting system that handles missing powered solutions for real-world problems. I am confident that my skills in NLP embeddings using SBERT are

I am impressed by the university's reputation for cutting-edge research and its focus on interdisciplinary collaboration. I am excited about the prospect of joining a fully funded PhD program at Delft University of Technology and contributing to the shaping of our understanding of AI's impact on business operations.

Thank you for considering my application. I look forward to discussing this opportunity further.

Sincerely,

Ismail Aissaoui
